Dear President Biden, Attorney General Garland, Director Carvajal, and Director Keller:

We write to request the expedited release of Mr. Leonard Peltier from the Coleman Federal Correctional Complex in Florida and request that Mr. Peltier be granted clemency. As part of the national response to the COVID-19 pandemic, the Department of Justice (DOJ) authorized the Federal Bureau of Prisons (BOP) to release elderly inmates and those with underlying health conditions from federal prisons. Given the unprecedented impact of the COVID-19 pandemic in our country, as well as Mr. Peltier's underlying health conditions and age, we request immediate action be taken to release him from federal custody.

On June 26, 1975, Federal Bureau of Investigation (FBI) agents Ronald Williams and Jack Coler were killed during a confrontation involving American Indian Movement (AIM) members on the Pine Ridge Indian reservation in South Dakota. Mr. Peltier was convicted of their murders in 1977 and sentenced to two consecutive life sentences. However, many evidentiary and procedural issues arose during the prosecution of Mr. Peltier's case, such as a critical alleged eyewitness to the shootings later retracting her testimony and admitting that the FBI had threatened her. Following a Freedom of Information Act ruling in 1980, Mr. Peltier's lawyers also discovered that the prosecution had withheld documented evidence that might have assisted Mr. Peltier's case.

Despite these revelations, Mr. Peltier has yet to receive a fair trial that is free from constitutional violations. Mr. Peltier is 77 years old and suffers from severe health conditions, including diabetes and an abdominal aortic aneurysm that can be lethal if ruptured. He has served more than 43 years in the federal prison system, some of which have been in solitary confinement. The support for Mr. Peltier's request for clemency is both widespread and strong. A petition for his release contained over 275,000 signatures and in 2021, former U.S. Attorney James H. Reynolds—whose office handled the criminal prosecution and subsequent appeal of Mr. Peltier—joined this movement by requesting Mr. Peltier's clemency to President Biden.<sup>1</sup>

<sup>1</sup> U.S. Attorney James Reynolds, "Clemency Request for Leonard Peltier to President Joseph R. Biden," July 9, 2021.

Amnesty International, a global human rights organization with over 10 million million members, supporters and activists worldwide, continues the call for Mr. Peltier's release to this day. Mr. Peltier has received overwhelming support from other internationally respected champions of human rights, including the late Nelson Mandela, His Holiness the Dalai Lama, Mikhail Gorbachev, Mary Robinson, former President of Ireland and United Nations High Commissioner for Human Rights, the European Parliament, the Belgian Parliament, the Italian Parliament, the Kennedy Memorial Center for Human Rights, Rev. Jesse Jackson, Rigoberta Menchu, seven Nobel Peace Prize Laureates (including Archbishop Desmond Tutu and Shirin Ebadi), Rage Against the Machine, Pete Seeger, Carlos Santana, Harry Belafonte, Gloria Steinem, and Robert Redford. This list represents but a fraction of Mr. Peltier's total supporters. His release is also strongly supported by elected tribal leaders across the U.S. and the National Congress of American Indians, who have passed resolutions requesting his clemency and compassionate release.

Given the combination of this overwhelming support, the constitutional issues underlying Mr. Peltier's prosecution, and his status as an elderly inmate with severe underlying health conditions, we believe it is highly appropriate that BOP prioritizes the expedited release of Mr. Peltier. We therefore request that Mr. Leonard Peltier receive an expedited release and be granted clemency.

Sincerely,
